

I, as a US taxpayer and concerned citizen would greatly feel my freedom of speech would be abridged if you were to allow Low Power FM stations to override the current FM translator service. As a K-LOVE listener and supporter, the radio station provides way more than just nice music, it's a way for people to be transformed from the inside and walk in HIS LOVE! You would be doing yourselves a great injustice. Please keep LPFM the same or find another way to expand there service. Thank you for your time in this matter.

Joyfully,
Kathy Dodge
